

ALIGNED WITH OMAN AI & DIGITAL FUTURE PROGRAM (2024–2026)

Done-For-You Paid Acquisition, **AI Lead Generation & Enterprise ERP**

Engineered for urban retail leaders across Muscat, Salalah, and Oman: Driving high-ROI targeted ad campaigns, AI-generated creatives, 100% automated omni-channel lead management, and modular retail operations infrastructure.

Primary Core

Done-For-You Targeted Paid Ads & AI Lead Generation

100% Automated

Omni-Channel Lead Routing across WhatsApp & Instagram

\$21.65B

Oman Retail Sector Market Forecast by 2034

The Omani Enterprise Growth Context: **Urgency & Acquisition**

Oman's urban retail sector is expanding rapidly, yet SMEs face high customer acquisition costs and fragmented lead tracking. Tadbeer delivers done-for-you paid ad engines and automated lead routers paired with custom ERP backbones.

ACQUISITION CHALLENGE

Wasted Ad Spend & Lost Leads

Most retail SMEs run unoptimized social ads or lose 50%+ of incoming inquiries due to delayed manual replies on WhatsApp & Instagram. Tadbeer manages paid campaigns end-to-end and routes every lead automatically.

OPERATIONAL BACKBONE

Seamless Infrastructure Integration

Captured leads flow directly into Tadbeer's cloud POS and stock inventory spine, allowing AI sales agents to verify live store stock and convert leads into paid orders instantly.

National Policy Alignment: Oman Vision 2040

Traditional Lead Generation Bottlenecks

- High Customer Acquisition Costs (CAC) from unoptimized ads
- Leads sitting in Excel files or personal staff WhatsApp accounts
- Zero attribution between paid ads and actual store POS revenue

Tadbeer DFY Ad Engine & Lead Router

- AI-made high-converting ad creatives & localized Omani hooks
- 100% automated omni-channel lead capture & instant AI replies
- Full revenue attribution from ad click to POS checkout

Done-For-You Paid Ads & Omni-Channel Lead Engine

~ Guaranteed High-ROI Lead Acquisition

Running targeted paid ad campaigns, AI-generated creatives, and managing 100% of incoming leads across WhatsApp, Instagram DMs & Web channels.

OPERATIONAL PAIN POINTS

- Wasted ad budget on generic social media ads without clear lead ROI or store sales attribution.
- Incoming leads lost or ignored due to staff failing to reply to Instagram DMs and WhatsApp inquiries quickly.
- High Customer Acquisition Costs (CAC) caused by unoptimized target audiences and weak ad copy.
- No centralized CRM to track lead conversion rates from initial inquiry to final retail transaction.

Tadbeer Done-For-You Ad & Lead Engine Flagship Core Service

Targeted Paid Ad Campaigns: Meta (Instagram/FB), TikTok, and Google Ads strategy executed & optimized end-to-end by Tadbeer.

AI-Made Creatives & Hooks: Autonomous AI generation of high-converting video reel concepts, ad graphics, and localized Omani copy.

Omni-Channel Lead Routing: 100% automated capture of every ad lead into a centralized pipeline, triggering instant 24/7 AI sales replies on WhatsApp & IG.

Measurable Impact: Lower Customer Acquisition Costs (CAC), 100% lead capture speed (<30s response time), and higher conversion.

POS, Inventory & Stock Control Spine ~ *Virtual Stock Controller*

Eliminating billing queues, stockouts of fast movers, intuitive over-stocking, and cash locked in dead inventory.

OPERATIONAL PAIN POINTS

- Billing delays and cashier bottlenecks during peak trading hours.
- Stockouts of fast-moving SKUs leading to lost revenue and frustrated shoppers.
- Intuitive reordering by store managers causing dead stock and locked cash.
- Heavy end-of-season discounting required to clear overstocked inventory.

Tadbeer Enterprise AI Solution

Cloud POS + AI Agent

Cloud POS Spine: Multilingual (Arabic/English), offline-tolerant POS integrated with local receipt printers & payment terminals.

AI Stock Controller Employee: Watches sell-through velocities, alerts on overstock/understock risks, and proposes automated supplier POs.

Daily Founder WhatsApp Digest: Delivers daily sales, top sellers, stock risks, and suggested markdowns straight to the owner's phone.

Measurable Impact: Zero stockouts of core SKUs & up to 35% reduction in cash tied in dead inventory.

Omni-Channel & Social Commerce Router ~ *Direct WhatsApp Sales Engine*

Unifying physical store POS, e-commerce stores, WhatsApp chats, and Instagram DMs into one automated pipeline.

OPERATIONAL PAIN POINTS

- Double-sold items due to disconnected store POS and WhatsApp/Instagram channels.
- Lost orders caused by slow manual response times on messaging platforms.
- Inconsistent pricing and promotions across physical outlets and digital DMs.
- Fulfillment chaos and delayed deliveries leading to customer complaints.

Tadbeer Enterprise AI Solution

RetailOps Router

Unified RetailOps Order Hub: Connects POS, Shopify/Woo, WhatsApp & Instagram DMs into one JSON data pipeline backed by Supabase.

AI WhatsApp/IG Sales Agents: Displays catalog, verifies live stock from POS, processes payments, and creates orders 24/7 automatically.

Fulfillment Automation: Assigns delivery tasks, tracks order status, and auto-notifies customers via automated WhatsApp updates.

Measurable Impact: Zero lost WhatsApp orders, 100% stock sync across all channels, and faster delivery fulfillment.

Micro-CDP & Customer Loyalty Engine ~ *Done-for-You Retention*

Transforming silent POS receipts into intelligent customer profiles, automated WhatsApp campaigns, and friction-free loyalty.

OPERATIONAL PAIN POINTS

- Customer data sits isolated inside POS receipts with zero marketing activation.
- Generic discount spams that erode margins without driving true customer loyalty.
- High customer churn with owners unaware of lapsed repeat buyers.
- Complicated loyalty apps that customers refuse to download or register for.

Tadbeer Enterprise AI Solution

Micro-CDP + AI Marketer

SME Micro-CDP: Ingests POS receipts, WhatsApp chats & sign-up forms into a unified customer table with purchase history.

AI Customer Segmentation Agent: Auto-groups buyers into VIPs, frequent visitors, lapsed buyers, and category affinities.

App-Free Loyalty & WhatsApp Campaigns: Tiered points & punch-card rewards tracked seamlessly via phone number at POS checkout.

Measurable Impact: 25%+ increase in repeat customer visits & higher average cart value through automated retention.

Founder Cockpit & Conversational AI CFO ~ Live CFO in Your Pocket

Replacing bank statement guesswork with real-time financial dashboards, margin visibility, and on-demand AI financial simulation.

OPERATIONAL PAIN POINTS

- Owners juggling POS exports, bank statements, and gut feel without true margin metrics.
- Inability to forecast cash flow or run scenario analysis before expanding outlets.
- Undetected margin compression and sudden inventory write-offs killing profitability.
- Lack of time or specialized staff to analyze complex financial spreadsheets.

Tadbeer Enterprise AI Solution

Founder Cockpit + AI CFO

Founder Cockpit Dashboard: Real-time visual views of daily revenue, gross margins, stock health, and cash conversion cycle.

Conversational AI CFO on WhatsApp: Owners chat with an AI having live data access to ask "Can I open branch #2?", "Will this discount kill margins?".

Automated Anomaly Alerting: Proactive WhatsApp flags for sudden sales drops, stock write-offs, or unexpected cost spikes.

Measurable Impact: Total financial clarity for store owners & data-backed expansion decision-making.

Procurement & Supplier Cash Guard ~ *Smart Capital Discipline*

Structuring chaotic phone/WhatsApp supplier reorders into automated purchasing policies that protect cash liquidity.

OPERATIONAL PAIN POINTS

- Chaotic purchasing via informal phone calls and WhatsApp messages with local importers.
- Unplanned bulk buying that ties up working capital in slow-moving inventory.
- Lack of visibility into supplier lead times causing unexpected stockouts.
- Manual invoice reconciliation leading to payment errors and supplier disputes.

Tadbeer Enterprise AI Solution

Supplier Portal + Purchasing Agent

Supplier Portal & API: Web interface where local wholesalers view demand forecasts, recommended orders, and confirm deliveries.

AI Purchasing Agent: Monitors sell-through velocities, lead times, and cash reserves to propose balanced purchase orders.

Cash Discipline Workflows: Strict rules (e.g. "Do not exceed X% cash in slow stock") enforced before approving new purchase orders.

Measurable Impact: Optimized purchasing cycles, zero emergency high-price reorders, and protected working capital.

Staff Productivity & Compliance Operations ~ Automated Store Onboarding

Overcoming retail talent shortages through AI floor guidance, contextual micro-learning, and CBO digital fee waiver optimization.

OPERATIONAL PAIN POINTS

- High staff turnover requiring constant, repetitive training overhead from store managers.
- Mistakes in POS system usage, wrong stock adjustments, and incorrect discounting.
- Uncertainty surrounding Central Bank of Oman (CBO) digital transfer fees & VAT rules.
- Reconciliation discrepancies between store POS card terminals and bank deposits.

Tadbeer Enterprise AI Solution

AI Floor Manager + Payment Layer

AI Floor Manager Agent: Accessible via WhatsApp or store kiosk, answering "How do I process X?", walking staff through system steps.

Contextual Micro-Learning: Short video/text lessons automatically triggered when staff make POS adjustment mistakes.

CBO Digital Fee Waiver Optimization: Configures cashless flows to maximize benefit from Central Bank transfer fee waivers.

Measurable Impact: 70% reduction in staff onboarding time & 100% automated regulatory compliance alignment.

5 Productized Turnkey Growth Packages

Modular enterprise packages engineered for rapid deployment with immediate operational ROI.

PACKAGE 01 (FLAGSHIP)

DFY Ad Growth & Lead Engine

Targeted Ads Execution + AI-Made Creatives + Omni-Channel WhatsApp/IG Lead Router + AI Sales Qualifier.

Target: Businesses scaling customer acquisition
