Semi-Government

Cafés & Hospitality

Manufacturing

Telecom

Public Sector

Industrial & Mining

Retail Chains

Apps & Services

Luxury Brands

Hospitality & Tourism

Our Success Stories: What We Have Done

See how we have helped brands across the GCC build automated sales systems and grow their revenue.

LUXURY RETAIL

Oudh Al Kabir & Perfumes

- Luxury fragrance positioning, targeted paid ads & VIP gifting campaigns
- WhatsApp automated catalog & direct ordering engine
- High-margin gift set bundling & prestige scent storytelling
- Direct POS integration & VIP repeat buyer rewards

Outcome: High-margin luxury sales & zero reliance on discount spams

RETAIL CHAINS

Al Qurum Perfumes & Retail

- Multi-channel digital marketing & in-store promo activations
- WhatsApp lead router & instant 24/7 AI sales qualifier
- Automated lead tracking & localized ad conversion funnels
- Omni-channel store locator & instant stock verification

Outcome: +200 new leads/month; daily inquiries grew 5x

MANUFACTURING & B2B

Al Harrasi Rope Factory

- Full B2B customer acquisition funnels & CRM integration
- Automated client request routing & sales staff handoffs
- Product catalog optimization & volume-based pricing flows
- Performance tracking dashboard showing live lead values

Outcome: 40% reduction in manual order processing friction

CAFES & HOSPITALITY

Gloria Jean's Coffees

- Daily social engagement — reels, posts, and discount campaign alerts
- Localized store promotion campaigns across Muscat branches
- Custom digital menu & feedback collection automation
- Influencer marketing collaboration strategy

Outcome: Elevated local brand awareness & weekend footfall growth

Common Challenges: Why Retailers Stop Growing

Every Day Shopping Center generates strong footfall and revenue (264K OMR in Q2 2026), but faces 4 critical blockers to scaling online.

CHALLENGE 01

Social Algorithm Dependency & Loose Funnel

Relying 100% on Instagram views (@every.d24) without an owned customer list or direct CRM. Followers must DM and wait, causing massive customer drop-off.

- × No automated link from Reel interest to checkout catalog
- × No direct subscriber capture to buffer against reach drops
- × High customer friction during manual DM-to-purchase flows

Risk: Organic reach fluctuations can instantly hurt footfall

CHALLENGE 02

Empty E-Commerce Storefront (Udu)

Udu e-commerce account exists but remains completely unstocked, unbranded, and unpromoted. High-value digital traffic is directed only to a map link.

- × Paying for e-commerce tools with 0 SKUs listed online
- × No capability to accept 24/7 web orders from Qurum & Muscat
- × Storefront lacks visual branding, trust badges, or local payment options

Risk: Wasted software budgets & missed out-of-store sales

CHALLENGE 03

Unstructured POS Product Data

Our POS data audit shows 96-97% of sales categorized under "Not Categorized" or "TEMP" buckets. The product data cannot be synced to Udu cleanly as-is.

- × 15,000+ SKUs lack clean hierarchy or systemized tags
- × Manual listing is too slow; bulk import requires database cleanup
- × High risk of inventory mismatches between physical store and online stock

Risk: Inventory sync blockers prevent e-commerce launch

CHALLENGE 04

Unstructured Visual Branding & Competition

Staff-hosted Reels perform well but lack consistent templates or identity. New rivals (e.g. C Flash nearby) capture market share by copying discount offers.

- × No highlight covers, style guides, or post templates
- × Brand appears as a discount-only seller rather than a reliable center
- × Lacks consistent video formats to convert viral views into buyers

Risk: Price wars with local copycats erode margins

How We Fix It: Our 4-Step Solution

A simple, proven system to transform Every Day's organic reach into predictable online orders and repeat footfall.

01

E-Commerce Launch

- ✓ Audit and clean legacy POS database to filter out "TEMP" items
- ✓ Bulk upload fully systemized retail catalog to Udu storefront
- ✓ Configure bilingual mobile-first checkout screens
- ✓ Integrate secure local Omani payment gateways & COD options
- ✓ Feature high-margin home goods, toys & elder-care collections
- ✓ Set up instant inventory level sync and triggers

Goal: Accept 24/7 web orders & COD

02

Automated Funnel

- ✓ Install automated Reels-to-Product-Catalog links
- ✓ Configure instant DM auto-catalog responses
- ✓ Deploy centralized WhatsApp Business API and chat routers
- ✓ Capture customer phone numbers to build CRM lists
- ✓ Launch automatic checkout abandonment recovery triggers
- ✓ Track click-through & add-to-cart metrics in real-time

Goal: Turn views into trackable leads

03

Visual Branding

- ✓ Establish premium deep red & gold typography guidelines
- ✓ Standardize reusable high-converting feed post templates
- ✓ Design custom highlight covers for core gifting categories
- ✓ Optimize Instagram bio copy and direct shop link
- ✓ Create product display cards for video reels
- ✓ Develop visual frameworks to defeat competitors

Goal: Match visual presentation to scale

04

Paid Ad Scale

- ✓ Target Muscat and Al Qurum demographic location ads
- ✓ Launch geo-fencing ads around complex coordinates
- ✓ Re-engage store website visitors with pixel tracking
- ✓ Put budget on organic Reels showing high engagement
- ✓ Distribute custom offers for weekend gifting specials
- ✓ Monitor cost-per-acquisition & ROAS targets daily

Goal: Reach new nearby buyers daily

Tadbeer handles the data cleaning, template design, and marketing setup so your team can focus purely on fulfillment.

What We Do: Our Full Services

Everything you need to grow your retail business, handled by one expert team from start to finish.

Digital Marketing & Ads

- WhatsApp catalog broadcast flows
- Customer loyalty registration
- Omanization compliance advice
- In-store signage & QR codes
- Sales performance dashboards

Full Strategic Integration

An integrated system built on your real revenue (264K OMR) to scale Every Day Shopping Center to its next stage.

Next Step: Let's Plan Your Growth

A quick 45-minute meeting to map out exactly how we can launch your digital products and grow your brand:

01

Udu Catalog & POS Data Clean

How can we access your POS database to clean the "TEMP" and "Not Categorized" buckets for bulk upload to Udu?

- Define clean category structure (grocery, toys, home, etc.)
- Identify high-margin products to prioritize for listing
- Set up POS database export tools and script pipelines

Focus: Database optimization & catalog launch

02

Content Pillars & Visual Templates

How can we define specific content pillars (e.g. daily deals, elder care, toys unboxing) to replace ad-hoc posting?

- Review red & gold templates for Reels & Feed posts
- Set tone of voice for staff-hosted content style
- Approve visual highlight icons & style guides

Focus: Branding design & templates approval

03

Paid Ads Targeting & Budget

What monthly ad budget (we recommend 100-150 OMR) will we allocate to target nearby Al Qurum and Muscat shoppers?

- Set target Cost-Per-Inquiry & customer action KPIs
- Configure local geographic and age targets on Meta/TikTok
- Establish testing guidelines & target advertising channels

Focus: Paid acquisition ROAS & budgets

04

Core Scope & Proposal Options

Which packages (Core Retainer at 250 OMR/mo, plus optional branding or Udu add-ons) will we activate for Month 1?

- Review 90-day roadmap targets (90 leads in Month 1)
- Align on team roles and database read-access permissions
- Select Month 1 package inclusions and add-on scope

Focus: Scope approval & project kickoff

Following this discovery session, Tadbeer will deliver a comprehensive project scope with exact launch timelines and data sync procedures.

Partnering for Commercial Retail Growth For Every Day Shopping Center across Oman & the GCC.

We look forward to collaborating with Every Day Shopping Center to build your owned e-commerce storefront, optimize your POS database, and maximize recurring retail revenue.
